

# Labdoo.org needs your decommissioned laptop, tablet & eBook reader for children and education

**Labdoo contributed 14,500 laptops for 360,000 children in 1,150 projects in 123 countries (06.2018)**

- Labdoo.org needs your IT donation for schools and educational projects in the world to help children and refugees to get access to education and IT („digital gap“)
- eWaste will be reduced; computers get a “2nd life” to bring education to children, broken devices will be properly recycled
- Your disc-drive will be wiped (writing 3-times random data to the disc-drive) or you remove all data yourself before donating
- Travellers take the laptops CO2 neutral to schools and projects abroad
- Children get access to education and ICT
- Donors can check the status and location of each IT donation online (stick a label with your e-mail on the laptop)
- Free educational software and content include off-line wikis in local language(s)
- You know schools in need? Start a request for a free IT donation.

## How you can contribute:

Donate your laptop, eBook Reader, tablet etc., not being used anymore

You will travel to a country with Labdoo projects?  
Take a laptop to a school and education to children.

# Labdoo.org

Your network to bring education around the world
